

The work of GIZ in the area of Industrial Parks / Special Economic Zones

Steffen Felix | Private Sector Development Adviser | 25.07.2019

GIZ's work in the area on Industrial Parks (1)

Reforming the economic environment

- Supporting ministries and other stakeholders to create a sound business environment and industrial strategy, which sets the context for the use of specific investment promotion tools (such as industrial parks / SEZs)
- Example: Work with SADC on industrial policy formulation using a UNIDO/GIZ instrument called „Enhancing the Quality of Industrial Policies (EQuIP)“
<http://www.equip-project.org>

Support international exchange and research

- GIZ organises the international Sustainable Industrial Areas (SIA) Conference annually. It is free of charge. <https://www.siaconference.com/>
- Funding of research, such as the study presented today by Saskia Möhle

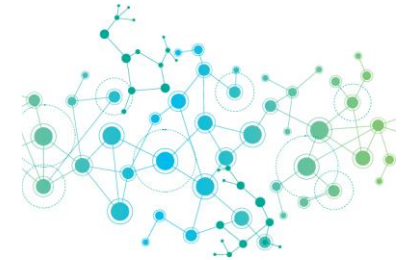

GIZ's work in the area on Industrial Parks (2)

Support to Development of Sustainable Industrial Areas

- Hosting a toolbox with instruments for industrial zones:
<https://www.sia-toolbox.net/>
- International Framework and Practitioner's Handbook on Eco-Industrial Parks (EIP) by World Bank, UNIDO and GIZ:
<https://www.sia-toolbox.net/solution/international-framework-eco-industrial-parks>
- Guide for industrial parks on how to become more climate-resilient <https://www.climate-expert.org/en/home/tools-trainings/guide-for-industrial-zones/>
- Trainings for businesses which may be industrial zones (eg on entrepreneurship, resource efficiency, environmental protection)

An International Framework For
Eco-Industrial Parks

December 2017

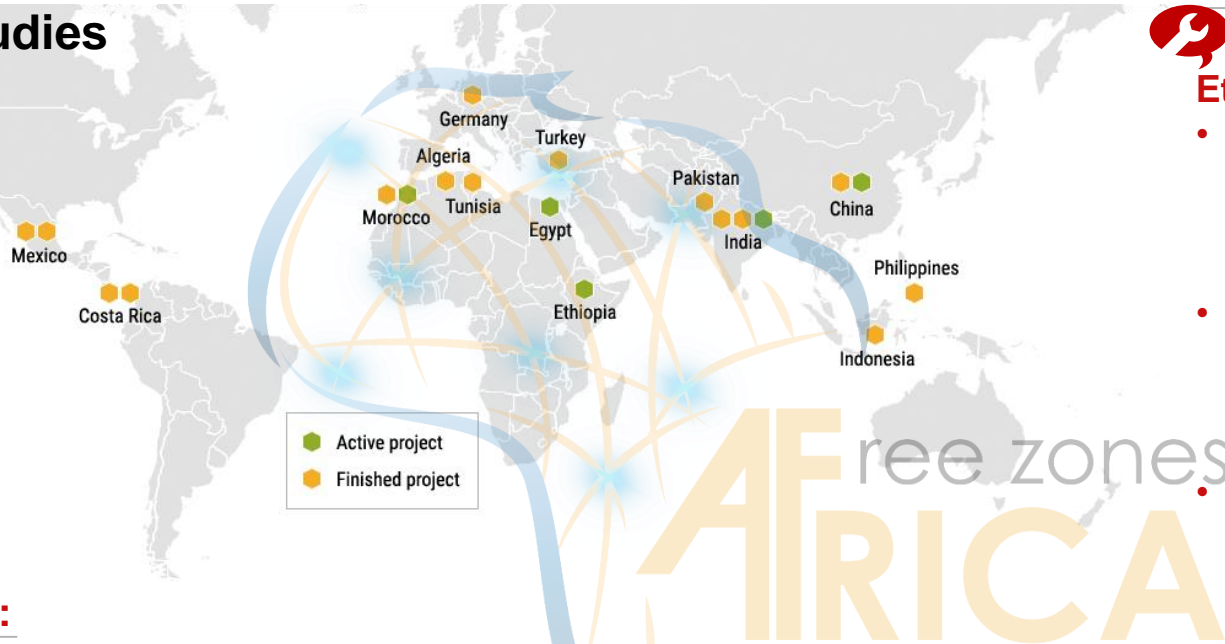

Methodological Guide for the Adaptation to
Climate Change of Industrial Zones

A guide on climate risk and opportunity management for the use of those involved in managing existing industrial zones

Version April 2019

Case Studies

Ethiopia:

- Support Industrial Park Development
- Cooperation on overall park management
- Support companies in industrial parks with OEKO-TEX STeP certification
- Support in developing sludge management guideline

Egypt:

- Capacity building to the Industrial Development Authority on park management
- Implementation of EIP framework at three parks (2 greenfield & 1 brownfield)
- Support in designing industrial zones (Location, Master plan, Demand Analysis)
