Social Sustainability

Support to local communities and local administration

Mimi Niko Kazi Youth Employment Programme

Nationwide

We match employers and interns

6 months on-the-job training

500 interns have already graduated; 50% got permanent contract

35% percent are women

Expansion Plan

Our Approach

- **Nationwide** expansion – create industrial parks to support large anchor projects, ranging from extractives to food industry
- **Suppliers** of the anchor, and their **subcontractors** are based in the park
- BIP is a public private partnership and **works closely** with Government
- **Support** for local content and local communities with internships, job creation, agro-processing, entrepreneurship development and conservation areas
- BIP **manages and promotes** partnerships with Donors
- **Impact** and **sustainability** are our core values
- **Covid – 19 lesson learnt:** develop our own response as a country, industrial park with huge potential
